Hey [NAME],

You have **48 hours left** to take advantage of this \$100 discount.

[→ Click here to claim your \\$100 discount.](#)

If you really want to end the harassing phone calls, eliminate the threat of wage garnishments, and stop the worry and fear so you can finally have peace of mind (and I'm guessing you do or you wouldn't have contacted us), then this is the solution you've been waiting for.

Remember, not only can we help you qualify for a student loan forgiveness program or a student loan consolidation program, we can also cut your loan payments in half.

Plus, we can stop the obnoxious phone calls from creditors, and in some cases we can defer your student loan payments for up to three years, and it only takes about 60 to 90 days depending on how fast the D.O.E. moves.

[→ Click here to reduce your student loan burden with a \\$100 discount](#)

And you're covered by our 100% money-back guarantee. If we don't solve your student loan issues, you don't owe us a thing.

If you've been putting this off because of the price, consider this...

If you keep ignoring this situation and rack up more penalties, then by the time you finally do pay off your student loans you could end up paying 3 to 4 times the original loan amount.

Do you really want to put all your money towards loans when you could be paying for a new home or car?

When you think about it, the small fee we're asking you to pay for our **Federal Student Loan Relief Program** is just a drop in the bucket compared to the financial burden you'll have if you wait.

The choice is clear.

So DO IT NOW before things get worse and you find yourself in litigation.

Wishing you the best,

Subject: She Paid Off \$90K In Student Loans In 3 Years

Hey [NAME],

Did you know that you can quickly pay off your student loans in half the time you thought possible?

In an article on Forbes.com, Stefanie, a college student who attended The University of Maryland for her Bachelor's degree, and then went on to earn her Master's degree from The University Of Tennessee, racked up an astounding \$90,000 in student loan debt.

The amazing thing is, she paid it all off in just 3 years.

[Check it out here](#)

<http://www.forbes.com/sites/learnvest/2013/01/15/how-i-paid-off-90000-in-debt-in-three-years/>

It did take a little effort on her part, but when you combine her efforts with Our **Federal Student Loan Relief Program**, you can quickly reduce the stress of your student loan debt faster than you think.

You've really got just 2 options at this point.

Option 1: Do Nothing.

Keep ignoring your student loan debt and hope it will go away, but I can tell you what will happen if you do that.

The D.O.E. will likely refer you for litigation, and you'll spend years trying to recover from damaged credit, making it impossible to buy a home, finance a car, or even get a job.

Option 2: Finally Reduce Your High Student Loan Payments

Click the link below to get started now, and take some stress off your shoulders. You'll be happy you did it, we promise.

As you probably know...

"The definition of insanity is doing the same thing over and over again when it doesn't work."

Subject: This is URGENT...

Hey [NAME],

Do you owe the IRS \$1,000 or more in back taxes?

If so, listen closely to what I'm about to tell you.

Many of our **Federal Student Loan Relief** customers also struggle with tax burdens, back taxes, IRS defaults, and some have even filed bankruptcy to escape the financial nightmare.

And many of them have turned to us for help with their desperate tax situation, and that's why we want to share this URGENT message with you.

Being in debt to the IRS can not only damage your credit score, lead to property seizures, and force you to forfeit any future tax refunds that you're probably relying on.

It can also lead to something much worse...

In a Business Insider article, CPA Julius Green states that if you fail to file your taxes, you can get hit with a penalty of as much as 100% of the taxes owed.

Plus, if you fail to pay you'll be hit with a penalty *plus* interest charge of 4%-6%, and it could ultimately land you in jail if they suspect you are guilty of fraud or tax evasion.

You might already be aware of the dangers of this, but did you know you can quickly and easily have all your tax nightmares disappear fast?

Here at **Federal Student Loan Relief**, we're proud to offer you the fastest and most effective **tax relief service** on the market.

Our tax relief service isn't like all the other tax relief services out there.

- We deal with the IRS directly so you don't have to
- We stop the IRS from hounding you and using pressure tactics to scare you
- We eliminate the worry and stress you might feel by avoiding any wage garnishments
- We ensure the IRS cannot take any future refunds you are rightfully owed
- We offer solutions that avoid having your assets seized, and your bank accounts raided
- We help you every step of the way, regardless of the amount you owe, from \$1,000 to \$1,000,000.
- We offer rates far below the rates of other tax companies

When you choose to sign up with our tax relief service, we'll take action on your behalf to quickly help you either eliminate your taxes, or work out a plan with the IRS to gradually pay them off without penalties or other legal problems.

Call us now at 1-888-303-5128 to get your free consultation

When you act now you'll get a free investigation by an IRS Enrolled Agent or Tax Accountant on your behalf, along with a free tax resolution proposal within 48 hours.

There are no minimums on the amount of taxes you owe, no hidden charges, and you're not obligated to pay us anything unless you are completely confident we can help you solve this problem affordably.

We love to help people who want to help themselves, so the only qualification we have is that you be willing to take action.

If you can't do that, **we're likely not a good fit for you.**

Subject: He Embarrassed The IRS...

In 1974, the IRS seized his father's business for back tax debts.

They padlocked the doors and auctioned the equipment off for a few cents on the dollar.

Then in 1977, they turned their attention to his family's home.

Dan Pilla came home one day and his mother handed him a letter from the IRS. She said, "What do you make of this?"

He read it and said, "It looks like they're going to take the house." She wanted to know what they could do about it. His mom was in tears.

Though he had no answer, he went to a law library near his home in St. Paul.

He starting fumbling around in the tax code and literally stumbled onto an area of the law deals with taxpayers' rights and limits the IRS's power.

He didn't get six pages into that part of the code and found that the IRS was proceeding illegally to seize his home. So he did what any eighteen-year old would do—he sued the IRS!

He soon found himself in a federal courtroom in Minneapolis in front of a judge and opposed by an IRS attorney from Washington, D.C. After hearing arguments from both the IRS's attorney and Dan, the judge declared that he was right and slammed his gavel. He won the case!

As intimidating as the IRS can seem at times, they are not almighty.

If you've got \$1,000 or more in back taxes, and need someone on your side to deal with the IRS and solve your tax nightmare, we can help.

Many of our **Federal Student Loan Relief** customers struggle with tax burdens, back taxes, IRS defaults, and some have even filed bankruptcy to escape the financial nightmare.

Subject: Too Much Debt?

Hey [NAME],

Do you feel overwhelmed by the staggering amount of debt you've take on?

Are you having trouble paying the minimums on your credit cards, facing home foreclosure, or have you been threatened with vehicle repossession?

If you don't pay your debts, a world of hurt is awaiting you.

Being just 30-60 days late on your credit card or loan payment will usually lower your credit score by 60 to 110 points, resulting in higher interest rates on any future credit cards or loans, including mortgages and auto loans.

And being delinquent for more than 90 days will damage your credit score for up to 7 years, making it impossible for you to live a normal life.

When everyone you know is out financing new homes and cars, you'll be stuck struggling just to keep up with your debt payments.

It could also affect you getting a job. If your debt goes into collection, employers will see that on your credit report.

And in a worst case scenario, you could be sued.

A lot of people don't think that debt collectors will sue you, but they legally reserve that right for any debt you owe, and litigation could lead to wage garnishments.

Collectors will literally make your life a living hell, but you don't have to stress because here at **Federal Student Loan Relief**, we've helped thousands of clients get out of debt fast, and we can help you too.

Call us now at 1-888-303-5128 to speak with one of our debt relief experts.

Subject: **Want Proof NES Health Works?**

Hey [NAME],

Harry Massey here from **NES Health**.

You know that old proverb: The proof of the pudding is in the eating. Well, at NES Health, it's also in the research!

Here are just a few of our remarkable research highlights.

***ACCURACY OF NES PROVISION WELLNESS ASSESSMENT CONFIRMED
BY COMPARISON TO 3 INDEPENDENT ENERGY ASSESSMENT DEVICES***

In a recent large-scale comparative study carried out by the Centre for Biofield Sciences under the supervision of Dr. Thornton Streeter, 96.5% of the 240 participants in the control group experienced a positive change (compared to 35% in the placebo group).

The study also demonstrated the efficacy of the NES ProVision software to highlight energetic distortions, demonstrating that it was comparable to the combined abilities of 3 energy measurement devices: PIP (polycontrast interference photography), GDV (gas discharge visualisation) and EIS (electro-interstitial scan). [Click here to learn more about ProVision studies here.](#)

NES miHEALTH SHOWS 93% EFFECTIVENESS IN OUTCOME STUDY

We recently conducted a large Outcome Study for our miHealth scanner that included 251 subjects and which collected data across 367 data points. In the study, 88% of the participants benefitted from the NES miHealth therapy at the initial consultation.

Additionally, the positive effect on general rejuvenation was compounded on the second and third therapy sessions so that the subjects saw an increasing trend to wellness. [Click here to learn more about miHealth studies here.](#)

***NES INFOCEUTICALS EFFECTIVE IN RE-IMPRINTING LEADING TO AN ENHANCED ABILITY
TO DEAL WITH STRESS IN FAMILIES OF MILITARY PERSONNEL***

A study carried out by Desiree Del Monte, under the supervision of renowned energy medicine researcher, Dr Norman Shealy, at Holos University, USA, showed that the NES Infoceuticals led to a reduction in depression scores and self-reported stress measures in 54 subjects with immediate members of family in active service in the military.

Results based on the self-administered pre- and post- tests indicated difference in stress scores over time, showing that participants had lower scores post-therapy than they did pre-therapy. [Click here to see more Infoceuticals results here.](#)

Subject: Free Gift You'll Love...

Hey [NAME],

Harry Massey here from **NES Health**.

What makes NES Health unlike any other bioenergetics healing system out there?

It's simple. We discovered after 30 years of research and mapping the human body-field that manipulating the body's energy alone isn't enough for healing to take place.

We have to take into account the information, the blueprint, our body provides from the moment we're born.

- How does our body know how to grow our organs?
- How does it know where to position our limbs?
- Where does the information to heal come from?

These are all questions that researchers have wanted the answers to for years.

If you'd like to find out how you can heal yourself and others through energy and information, then download our free ebook, "***Heal Yourself and Others by Mastering Energy and Information***".

Subject: CBS's *The Doctors* LOVES NES MiHealth™...

Hey [NAME],

Harry Massey here from **NESHealth.com**.

Today I wanted you to see why CBS's *The Doctors* is raving about our MiHealth™ treatment device.

[Watch it now](https://www.youtube.com/watch?v=pHhFVLVimdk) (link to here: <https://www.youtube.com/watch?v=pHhFVLVimdk>)

The possibilities for healing are endless when using the miHealth device, and the benefits to practitioners are pretty incredible, too.

When you use the miHealth device on your clients, you'll be able to:

- Treat patients remotely (from their homes), and do it fast and effectively
- Build a practice that produces **more referrals** and **more repeat business** due to higher treatment success rates
- **Gain a competitive edge** over all your competition
- Produce INCREDIBLE results for your patients while **shaving hours off your work day**
- Drastically **increase the money you make** from each patient you treat
- Virtually **eliminate all complaints** about paying for your treatments
- And sooo much more...

Perhaps the biggest benefit is treating clients remotely with this device, allowing you to spend less physical one-on-one time with clients.

So what does this mean for you?

Well, you can either:

1) Ignore this revolution in health care that's changing the way practitioners work with clients

Or...

2) Jump on this opportunity and gain a HUGE advantage over your competition.

Would You Like To Experience The miHealth Device In Your Own Practice?

If you'd like to experience having a client miHealth, the accuracy of the scan and the power of the infoceuticals, you can purchase the client miHealth for \$1800 USD and we will give you a free scan with consultation, free digital infoceuticals, free infoceuticals, copy of decoding the human body-field and Directors Cut DVD of The Living Matrix movie – a savings of \$310 USD.

"I have been working with the NES miHealth for the last two months - and the reaction from my clients has been overwhelmingly positive. And interestingly, since I've started using the device, a lot of new clients have come to my practice asking for a session with the NES miHealth, having heard about their good results from family and friends".

Subject: **Free Introductory course in the Bodyfield. Perhaps the most dramatic discovery since DNA**

Hey [NAME],

Harry Massey here from **NESHealth.com**.

Why are so many experts calling the human body-field, mapped by NES Health, the most dramatic discovery since DNA?

In a similar way that DNA provides chemical information to the body for functioning, The Human Body Field describes the patterns of energy that influence biology.

When either the *information* or *energy* within the body becomes distorted, health deteriorates.

NES Health created its Total WellNES System to optimize the body's own powerful healing mechanisms. Even though it's a quantum leap, we designed it to make it very simple for you to use.

Based on the work of Harry Massey and Peter Fraser who [Decoded The Human Body-Field](#), the course presents the energetic physiology of the human body (the human body-field), and how you can clinically read and correct it.

THE BODY IS A MOST MIRACULOUS DOCTOR, when you give it the energy and information it needs to heal itself. This training tells you how.

Subject: The Health Revolution is upon us

Hey [NAME],

Harry Massey here from **NESHealth.com**.

Every practitioner who comes on board with NES Health does so because they have seen proof that our Total Wellness System works, and when they use it in their own practice it sells itself.

So, I thought it might be helpful if you heard what other NES practitioners are saying about it.

**"I have incredible devices in my clinic, but I am especially excited about this one [miHealth].
It's amazing."**

Catherine Willner, M.D. Neurologist & Chief Medical Officer, Nura Life Sciences Corporation

**"I like the accuracy, the effectiveness and the simplicity, but most of all I like the safety. The
safety factor is huge. There are no side effects to the Infoceuticals."**

Ron Minson NES Practitioner

**"The NES miHealth allows me to work on many different levels. The 'Inner Peace' cycle has
been very effective - allowing my clients to 'unwind' and relax, which has resulted in a deeper
response when used alongside the NEr ProVision."**

Maggie Lewis, Practitioner, UK

**"Probably my greatest NES testimony is a client that had a severe auto-immune disease and
after being on NES for less than two years she no longer takes medication, is able to work and
has a normal life and best of all her Doctor gave her a clean bill of health."**

Deborah Holt, Experienced nutritional counsellor and NES Practitioner

**"On the first day [of using NES ProVision], I saw the accuracy of it and was ecstatic. It's non-
invasive, immediate, and extremely comprehensive."**

Jason Siczkowycz ND Certified NES Practitioner

**"I have been working with the NES miHealth for the last two months - and the reaction from
my clients has been overwhelmingly positive. And interestingly, since I've started using the
device, a lot of new clients have come to my practice asking for a session with the NES
miHealth, having heard about their good results from family and friends".**

Rian Bruijne van Dorst, Practitioner, Netherlands

**"As the osteopath at the professional football club, Hamburger Sport Verein, I'm working
with professional athletes on a daily basis. Over the last two months we have integrated the
NES miHealth to support our players - and we have experienced remarkable results. Our
players recover faster and feel much more relaxed before games. They even want to use the
NES miHealth themselves at home."**

Subject: For Your Eyes Only...

Hi [NAME], it's Neil Smoli here, Founder of the Aviate Property Group...

Today I've got something special I want to share with you in regards to adding more high return investment properties to your portfolio, so you can offer more selection to your clients...

However, this email is for your eyes only...

Please promise me you won't share this with any other property group out there. I'll tell you why in just a second...

If you're losing clients because you only have a limited amount of investment properties, you're not alone. There are lots of property groups out there who can't seem to keep enough high ROI properties on hand to satisfy their clients...

That's where we can help...

See, our 32 point selection criteria for finding the best performing investment properties FORCES us to be choosy, but that's what has allowed us to outperform the market for the past 13 years...

It's like our own personal "cheat sheet" for finding high ROI properties for our clients, and you can take full advantage of that...

Since we have such a large pool of investment properties to choose from, we don't make every property available to our investors. This means we have a limited supply of high ROI properties we're making available to select property groups only...

The reason I don't want you to share this with anyone else is because you've been specifically chosen, and we want these valuable properties to fall into good hands...

These properties will go on a first come, first served basis. Remember, there's a limited supply and they will go fast.

Pick up the phone and **call us now at xxx-xxx-xxxx.**

Regards,

Neil Smoli

P.S. These high ROI properties will be gone if you wait even a few days.

Subject: They're Going Fast...

Hi [NAME],

I hope you got the email I sent you yesterday...

If not, allow me to re-introduce myself.

My name is Neil Smoli, and I'm the Founder of Aviate Property Group.

Yesterday I told you about some high ROI properties that we're offering to select property groups only, and we asked that you don't share this with anyone else...

These will allow you to offer more property selections to your clients, and create happier customers...

Ever since we sent out the first email yesterday, the interest and demand for these properties has been phenomenal. At this rate we don't know how soon all of these properties will be sold out...

So, if you're losing clients because you only have a limited amount of investment properties available, this is your opportunity to take advantage of our overflow inventory of properties that have already gone through our rigorous 32 point ROI checklist...
